

CHIARIFLOCCULATORI CLARIFLOCCULATORI

APPLICATION

Municipal water and wastewater treatment
Drinking water treatment
Industrial water and wastewater treatment
Power plant water and wastewater treatment
Water softening
Water decarbonation

PERIPHERAL DRIVE SCRAPING CLARIFLOCCULATORI

Diameter: 15-45 m.

Models

EM21A – Peripheral drive clariflocculator with slow mixers

EM21B – Peripheral drive clariflocculator with sludge recycling impeller

CENTRAL DRIVE SCRAPING CLARIFLOCCULATORI

Diameter: 5-15 m.

Models

EM11 – Static clariflocculator with sludge recycling impeller - Accelerator type

EM20 – Central drive scraping clariflocculator with sludge recycling impeller

EM22 – Central drive, radial bridge, torsion trestle clariflocculator

ACCESSORIES

Oil and grease collecting system with scraping blade
Telescopic valve
Ice protection on running path
Wheel slipping alarm
