

CHIARIFICATORI CIRCOLARI CIRCULAR CLARIFIERS

APPLICATION

Municipal water and wastewater sedimentation and thickening

Industrial water and wastewater sedimentation and thickening

PERIPHERAL DRIVE SCRAPING AND SUCTION TYPE CLARIFIERS AND THICKENERS

Clarifier Diameter: 15-60 m.

Thickener diameter: 15-30 m.

Models

EM17 – Peripheral drive clarifier

EM29 – Peripheral drive clarifier

CENTRAL DRIVE SCRAPING AND SUCTION TYPE CLARIFIERS AND THICKENERS

Clarifier diameter: 5-40 m.

Thickener diameter: 3-15 m.

Models

EM10 – Central drive scraping thickener

EM16 – Central drive scraping clarifier

EM18 – Central drive, radial bridge, torsion trestle scraping clarifier

EM30 – Central drive, radial bridge, torsion trestle suction type clarifier

ACCESSORIES

Oil and grease collecting system with scraping blade

Oil and grease collecting system with submersible pump

Weirs and scum blades automatic cleaning system with motorized brush

Telescopic valve

Ice protection on running path

Wheel slipping alarm
