

CHIARIFICATORI A PACCHI LAMELLARI LAMELLA PLATE CLARIFIERS

APPLICATION

Municipal wastewater treatment
Industrial wastewater treatment
Gas turbine power plant wastewater treatment
Oil & gas industry

LAMELLA PLATE PACKAGE CLARIFIER

Tank width: 1-2.5 mt
Tank length: 5-12 mt.

Models

- EM87A** – Lamella plates clarifier for concrete basin
- EM87B** – Lamella plates package unit with oil and grease collecting system
- EM87C** – Lamella plates package unit with settled sludge collecting system
- EM87D** – Lamella plates package unit with inlet flocculation
- EM87E** – Lamella plates package unit with oil and grease and settled sludge collecting systems

SEPARATORI API API SEPARATORS

APPLICATION

Oil & gas industry
Refineries

API SEPARATOR

The sizing of the API tanks is made according to the API (American Petroleum Institute) standards.

Tank width: 1.5-4 mt
Tank length: 5-20 mt.

Models

- EM53A** – Bottom and surface scraping clarifier

ACCESSORIES AND OPTIONS

Oil and grease collecting system with rotating pipe
Baffles for inlet distribution
Explosion proof manufacturing according to ATEX standards
